In The Name Of The True And Living God, The Beneficent The Merciful, Whose proper Name Is Allah, One to Whom all Praises are due to forever and Hereafter, and In the Name of the Son the Universal Savior God and Devine Deliverer as I greet you in the most holy and highest respects of the Universe in PEACE! my Beloved Brothers and Sisters.

First of all I hope this brief communication will find you in the best of health mentally as well as physically!

I would like to take this opportunity to express my concerns in regard to the misuse of the Supreme Mathematics, young brothers have brought me several sets of so-called Supreme Mathematics, none of them are the same and none of them are correct, these mathematics include a manifestation of the supreme mathematics where these lessons come from we have been unable to find out, however the Original Supreme Mathematics were given to us by Almighty God Allah and Lord Master Justice in their Original form and without any Manifestation, One can find a more clear meaning or manifestation of each individual mathematics in a Webster dictionary then you can in these so-called lessons and those definitions would still not be part of the Supreme Mathematics because they are not part of the Original, The importance of our mathematics being one of the same cannot be over stressed, and I beseech you do not be deceived by these false doctrines. I repeat, do not be deceived by these false doctrines! because Brothers and Sisters:

MATHEMATICS IS THE KEY AND EDUCATION IS THE DOOR!

I am sure that we all will agree that mathematics has been the foundation for all civilizations, The mathematical system that is used by society today, o through 9 was originated in Arabia and is still referred to today by mathematicians and historians as the Arabic-Hindu or the Hindu-Arabic system of math. This is because the European caucasian took this math system from the Hindu Indians in the 8th century A.D. thus they prefer to call it the Hindu-Arabic system. Since their adoption of this system over the old Roman numeral system of: I-1, V-5, X-10, L-50, C-100, D-500, M-1000. Their progress as a civilization has been remarkable to say the least. The caucasian immediately realized the unlimited possibilities of this new math, which was not limited to thousands as was their Roman system. This new math system gave them a wider range of control and accountability, they immediately started to add and multiply their populations, their wealths and their properties, while all the time dividing and subtracting the populations, wealths and land of other Original Nations.

Latter the good old boys of the good old U.S. of America under the leadership of George Washington, their first President, and the father of Freemasonry in the Wilderness of North America had declared themselves an Independent Nation, under the divine guidance of a Universal Architect and were masters of the Arabic-Hindu math, they were progressing at such an amazing speed that

it even baffled other caucasian nations. During this progress our foreparents who had been brought over here as slaves to help speed up this amazing progress, were forbidden to learn to read or write and to learn to use the mathematical system in the English tongue was punishable by death. However, some were taught by lazy or poor slave owners who could not afford overseers, others taught themselves with extreme caution. The slave would then teach a woman slave on the farm or plantation, who would in turn teach the children the math along with their reading and writing lessons. All of this was done under a penalty of death if caught! Even then our forparents had the insight to know that Education was a necessity if we were ever to master this hell which we had become prisoners of and many of them died for it, young and old! Yes Brothers and Sisters they died so we could get a basic education. One not near as good as those now available in public schools. The education that so many of you young Brothers and Sisters are taking for granted by saying that you don't have time for school, or you got better things to do, or thinking that you already know enough to get by in life, some of you are going to school and trying to teach the teachers. Get your degree then go to school and teach a whole class! Why do you think that so many Elder Gods and Earths as well as so many of your parents are going back to school, for the fun of it? EMPHATICALLY NO! It's because we thought we had better things to do or thought we knew enough to be us by, but we learned the hard way from experience, and we tell you this so you won't have to make the same mistakes we did!!! Think About It!!!!.....

Slowly but surely the American society is turning to the Metric system of math for weights and measurements this is a must for the American society, All other major nations on this planet have made a total conversion to the metric system. America is the only one who has not yet made a complete change over. It is the financial benefit of this country to convert because of overseas trade value, it is also more economical so you know it's coming. The Handwriting Is On The Walls, the walls of your supermarkets, the walls of your gas stations even the walls of your liquor stores. A lot of us might be able to get over when it comes to converting kilos and grams into pounds and ounces but a lot more of us are going to be lost when it comes to converting gallons and pints to liters and milliliters or inches to millimeters or miles to kilometers. This is another method used to keep our people illiterate, we've seen it happen before when they taught our children the new math in public schools. Many parents could no longer help their children with their math homework. Not only did we see a noticeable decrease in our children's math grades, but a new required math level for promotion in grade schools.

The conversion to the metric system however will effect everyone, already people are putting gas in their cars thinking

they are paying for gallons and are really paying for liters and not knowing the difference, they're buying alcoholic beverages asking for half gallons, quarts and pints not realizing that those measurements have been totally eliminated, the liquor companies don't even manufacture those bottles anymore, they are paying more and getting less and don't even realize it. Kitchen appliances and stoves are being manufactured with the temperature readings in Celsius instead of Fahrenheit! a lot of food is going to be undercooked or overcooked by people trying to get the hang of their new appliances, who can afford to waste food in these days in time.

Brothers and Sisters, I could go on like this for days but that's not the purpose of this article. It's to stress the importance of the right mathematical system and a durable education in these times of computer technology (of which mathematics is the foundation and the key) you will be unable to rise to the peak of your said ability, without a solid education as a foundation.

I have had many of my fruit come to me and tell me how just knowing the Supreme Mathematics has simplified their studies in the fields of Data-processing, Electronics and Computer programming. In case you haven't realized it yet Computer Technology is sweeping this country by storm bringing with it a whole new wave of opportunities and advantages however there will be plenty of disadvantages for the disadvantaged while computers will accelerate the progress of the American society tenfold it will also widen the gap between intelligence and illiteracy, a people who couldn't master the new math, or the metric system will find the math, the language and the science of the computer almost incomprehensible, but I say to them as I say to you, as long as you're alive and kicking, it's never too late to learn.

In some of the better communities in this country they are teaching children in the third and fourth grades computer science. These children will be masters of the computer by the time they finish junior high school, they are preparing their children for the future just as we must prepare ourselves and our children! If we as a nation fail to prepare our children for their proper place in society, we fail in our responsibility and duties as a civilized people to teach the science of everything in life, love peace and happiness!!!

Brothers and Sisters Mathematics is the Key! A good Education is the Door! By using your key to unlock the door you will find behind that door not only the necessities of life, such as food, clothing and a home to call your own, but the ability to obtain the better things in life, for you and yours.

No one has to be a thief, a stick-up kid, mugger, purse snatcher, pimp, prostitute, drug pusher or bank robber in these

days in time. Some of you will say but times are very hard! To you I say times were hard when our forparents were brought over here in chains on slave ships, when families were sold and separated from each other, when our women were raped and killed at will! When Black men were tortured, tarred and feathered, skinned alive and hung for recreation and entertainment! When Black Babies were cut out of their mothers stomachs then stomped and killed and fed to pigs! Those were hard times! They make these so-called hard times seem more like a picnic!

The newspapers are full of programs, schools, and business offering training in word processing, data processing, computer maintenance and repairs, computer programming and computer science and the salaries in these fields range from \$15,000.00 to \$75,000 a year, and these are legitimate dollars. So if you don't want to help yourselves, don't blame society or the white man, blame yourselves and don't go to prison and write me to tell me how right I was, I know I'm right!

If you don't have the Original Supreme Mathematics go to the Gods school in your burough or seek out one of the Elder gods, learn them and apply them they will make life a lot easier for you.

Brothers if this article helps just one of you who has dropped out return to school or one of you who has given up on education, see it in a more positive light then it has servied its purpose! Until our minds meet again, PEACE!

A WORD TO THE WISE!

THINGS COME TO THOSE WHO WAIT!
 IT COMES QUICKER TO THOSE WHO SEEK!
 IT NEVER COMES TO THOSE WHO RUN!
 AND PASSES BY THOSE WHO SLEEP!

PEACE, LOVE AND HAPPINESS
 UNIVERSAL S. ALLAH

MERCURY

5

Mercury the closest planet to the Sun, 36 million miles and is approx. 3,030 miles in diameter, with surface temperature of 350 degrees C (Celsius) or 660 degrees F (Fahrenheit) by day 170 degrees C or 270 degrees F by night. A year on mercury is 88 days. Mercury rotates only three times for every two trips it makes around the Sun thus a Mercury day is really 58.6 days.

Gods in Progress

- (1) First of all we would like to thank the Gods of the Supreme team who are presently in London on their second European tour, for the musical entertainment at our November Universal Parliament. I'm sure I speak for us all in wishing them all the success in the world.
- (2) The Gods of the Whirling Wizards will be performing at a benefit show for the N.Y. Urban Coalition and the Citizens Action for Safer Harlem (C.A.S.H.) on January 1st. At the Nat Holman Gym, City College 138th Street and Convent Avenue from 12 to 5 p.m. Admission will be \$2.00 for adults and \$1.00 for children and free for babies under 5 years of age. For further information call 864-5850.
- (3) We would also like to thank ALLAH CULTURE, who with the help of Mr. Humm the Principal have set up Civilization classes at Martin Luther King Junior J.H.S. classes are being held at the school at 122 Amsterdam Avenue Tuesdays and Thursdays from 2:30 to 4:30 p.m.

We are also requesting that any school Administrator who is having difficulty with Five Percenter in or around their schools to please contact us in writing at U.S. ALLAH ENTERPRISES G.P.O. BOX 6058 Long Island City, New York 11106. The letters will be forwarded to responsible Brothers in that community so that the problems can be resolved as soon as possible.

A WARNING!

After the Holidays are over many stores will have Turkeys on sale, many of these turkeys will be the self basteing type, like Butterballs, these turkeys are injected with Chemicals one of which is mono-diglycerides and should be avoided.
